Index to NLGI SPOKESMAN

Volume XLII

April 1978-March 1979

Index by Authors

Brannen, W. T., *Testing of Automotive Gear Oils By Other Than MIL Sequence Methods,* 6, XLII, September 1978

Coleman, R. L., *High Dropping Point Grease Thickeners,* 2, XLII, May 1978

Co-author, A. C. Witte

Crocker, R. E., *A Polyurea Grease For The Food Processing Industry,* 11, XLII, February 1979

Fultz, G. W., *The Identification of Miniature Bearing Greases By Liquid Chromatography and Infrared Spectroscopy,* 2, XLII, May 1978

Hanley, W. J., *1979 Car Trends and Lubrication Requirements,* 9, XLII, December 1978

Hanley, W. J., *Prolification of Lubricants For Construction, Logging, And Mining Equipment,* 3, XLII, June 1978

Hicks, P. B., Jr., *Silence Is Golden, But We Can't Afford It,* 10, XLII, January 1979

Holt, W. W., *Increasing Role Of Independent Compounder In Low Growth Lubricant Market,* 12, XLII, March 1979

Livermore, H. E., *Economic Consideration of Lubrication,* 3, XLII, June 1978

Martin, C. W., *President's Address—1978,* 9, XLII, December 1978

Mitchell, C. H., *Quality Assurance In Use,* 1, XLII, April 1978

Co-author, G. A. Shorten

Murray, J. L., *A Lubricant Suppliers View of Product Line Consolidation,* 3, XLII, June 1978

Risdon, T. J., *The Effect of MoS_2 On Wear With Greases Containing An Abrasive Contaminant,* 6, XLII, September 1978

Co-author, D. A. Gresty

Roberton, R. S., *Precision Studies With The Revised ASTM Timken Extreme Pressure Test Procedure For Lubricating Oils,* 8, XLII, November 1978

Sargent, D. J., *A Historical View of ASTM Method D-3527,* 5, XLII, August 1978

Sayles, F. S., *Measuring The Color of Lubricating Grease,* 4, XLII, July 1978

Co-author, M. Ehrlich

Stanton, G. M., *Wear Testing Of Greases With The Falex I Ring And Block Friction And Wear Test Machine,* 5, XLII, August 1978

Verdura, T. M., *Evaluating Compatibility of Greases With Elastomeric Seals,* 1, XLII, April 1978

Winston, M. M., *Hot Times! The Independent In the BTU Economy,* 4, XLII, July 1978

Witten, W. M., *Trans Alaska Pipeline,* 4, XLII, July 1978

Woodle, R. A., *Characterizing Base Oils From Gravity, Viscosity, Flash Point, and Aniline Point,* 12, XLII, March 1979

Index by Titles

1979 Car Trends and Lubrication Requirements, W. J. Hanley, 9, XLII, December 1978

Characterizing Base Oils From Gravity Viscosity, Flash Point, and Aniline Point, R. A. Woodle, 12, XLII, March 1979

Economic Consideration of Lubrication, H. E. Livermore, 3, XLII, June 1978

The Effect Of MoS_2 On Wear With Greases Containing An Abrasive Contaminant, T. J. Risdon, D. A. Gresty, 6, XLII, September 1978

Evaluating Compatibility of Greases With Elastomeric Seals, T. M. Verdura, 1, XLII, April 1978

High Dropping Point Grease Thickeners, R. L. Coleman, A. C. Witte, 2, XLII, May 1978

A Historical View Of ASTM Method D-3527, D. J. Sargent, 5, XLII, August 1978

Hot Times! The Independent In The BTU Economy, M. M. Winston, 4, XLII, July 1978

The Identification of Miniature Bearing Greases By Liquid Chromatography and Infrared Spectroscopy, G. W. Fultz, 2, XLII, May 1978

Increasing Role Of Independent Compounder In Low Growth Lubricant Market, W. W. Holt, 12, XLII, March 1979

A Lubricant Suppliers View Of Product Line Consolidation, J. L. Murray, 3, XLII, June 1978

Measuring The Color Of Lubricating Grease, F. S. Sayles, M. Ehrlich, 4, XLII, July 1978

A Polyurea Grease For The Food Processing Industry, R. E. Crocker, 11, XLII, February 1979

Precision Studies With The Revised ASTM Timken Extreme Pressure Test Procedure For Lubricating Oils, R. S. Roberton, 8, XLII, November 1978

President's Address—1978, C. W. Martin, 9, XLII, December 1978

Prolification of Lubricants For Construction, Logging, And Mining Equipment, W. J. Hanley, 3, XLII, June 1978

Quality Assurance In use, C. H. Mitchell, G. A. Shorten, 1, XLII, April 1978

Silence Is Golden, But We Can't Afford It, P. B. Hicks, Jr., 10, XLII, January 1979

Testing of Automotive Gear Oils By Other Than MIL Sequence Methods, W. T. Brannen, 6, XLII, September 1978

Trans Alaska Pipeline, W. M. Witten, 4, XLII, July 1978

Wear Testing Of Greases With The Falex I Ring And Block Friction And Wear Test Machine, G. M. Stanton, 5, XLII, August 1978

Index by Category

General

Hot Times! The Independent In The BTU Economy, M. M. Winston, 4, XLII, July 1978

President's Address—1978, C. W. Martin, 9, XLII, December 1978

Silence Is Golden, But We Can't Afford It, P. B. Hicks, Jr., 10, XLII, January 1979

Lubricating Grease

Application

Economic Consideration of Lubrication, H. E. Livermore, 3, XLII, June 1978

Prolification of Lubricants For Construction, Logging, And Mining Equipment, W. J. Hanley, 3, XLII, June 1978

Characteristics

The Effect of MoS_2 On Wear With Greases Containing An Abrasive Contaminant, T. J. Risdon, D. A. Gresty, 6, XLII, September 1978

High Dropping Point Grease Thickeners, R. L. Coleman, A. C. Witte, 2, XLII, May 1978

The Identification of Miniature Bearing Greases By Liquid Chromatography and Infrared Spectroscopy, G. W. Fultz, 2, XLII, May 1978

Measuring The Color Of Lubricating Grease, F. S. Sayles, M. Ehrlich, 4, XLII, July 1978

A Polyurea Grease For The Food Processing Industry, R. E. Crocker, 11, XLII, February 1979

Quality Assurance In Use, C. H. Mitchell, G. A. Shorten, 1, XLII, April 1978

Classification

A Lubricant Suppliers View Of Product Line Consolidation, J. L. Murray, 3, XLII, June 1978

Ingredients

Characterizing Base Oils From Gravity, Viscosity, Flash Point, And Aniline Point, R. A. Woodle, 12, XLII, March 1979

Requirements

1979 Car Trends and Lubrication Requirements, W. J. Hanley, 9, XLII, December 1978

Evaluating Compatibility of Greases With Elastomeric Seals, T. M. Verdura, 1, XLII, April 1978

Testing

A Historical View of ASTM Method D-3527, D. J. Sargent, 5, XLII, August 1978

Precision Studies With The Revised ASTM Timken Extreme Pressure Test Procedure For Lubricating Oils, R. S. Roberton, 8, XLII, November 1978

Testing Of Automotive Gear Oils By Other Than MIL Sequence Methods, W. T. Brannen, 6, XLII, September 1978

Wear Testing Of Greases With The Falex I Ring And Block Friction And Wear Test Machine, G. M. Stanton, 5, XLII, August 1978

Marketing

Increasing Role Of Independent Compounder In Low Growth Lubricant Market, W. W. Holt, 12, XLII, March 1979

Transportation

Trans Alaska Pipeline, W. M. Witten, 4, XLII, July 1978
